PERSONAL INFORMATION

Bui Khanh Phuong Nam

03/06/2004

Residing at Dormitory Zone B, University Village, VNU-HCM

Senior Student, University of Science, VNU-HCM

Specialization: Telecommunications - Networking

EXPERIENCE

QC Manual Intern – Wolf Solution (3 months)

Home Service Booking Application

- Tested a service booking application for household services such as home cleaning, air-conditioner maintenance, childcare, and home repair, ...
- Analyzed business requirements, user flows, and UI designs to understand booking processes, service selection, scheduling, and payment-related scenarios.
- Designed and executed manual test cases covering functional, smoke, and regression testing for core features such as booking, service management, and user profiles.
- Proactively collaborated with team members to identify system gaps and potential risks, successfully detecting multiple critical test cases and high-impact issues.
- Identified, reported, and tracked defects with clear reproduction steps, expected vs. actual results, and supporting evidence, ensuring effective communication with developers.

QA Automation Intern – TMA Solutions (3 months)

- Assisted in designing and executing test cases for web and mobile applications based on functional requirements.
- Participated in test planning, test data preparation, and test execution under guidance of senior QA engineers.
- Performed API testing using Bruno, validating request/response data and basic API workflows.
- Learned and practiced web automation testing using Selenium with Pytest for basic test scenarios.
- Supported mobile testing using Android Studio (ADB) and conducted basic automation experiments with Appium.

Scientific Research Lab Member

- Participated in research projects with a focus on system analysis, testing, and result validation.

STRENGTH

Accountability and Responsibility in the Workplace.

Open-minded and receptive to feedback/suggestions.

Inquisitive and eager to learn.

CAREER OBJECTIVE

Seeking an Intern Tester / Quality Assurance Intern position in a professional software development environment where I can apply my knowledge of manual testing in real projects, while gradually developing my skills in automation testing.

Highly motivated and self-driven, with a strong desire to improve my expertise in test case design, bug reporting, and software quality assurance processes.

Aiming to build a solid foundation to become a QA Engineer capable of both Manual and Automation Testing, with hands-on exposure to web, mobile, and API testing in the future.

LANGUAGE PROFICIENCY

Certified in English, with basic conversational English proficiency (listening, speaking, reading, writing).
